8:30 A.M. – 5:00 P.M. WORKSHOPS AND PRESENTATIONS

TWO WORKSHOPS

Each 1-1/2 hour session will be offered three times.

Archiving Your Family History

Using Shutterfly, we will demonstrate how to get your photo book started and help individually where you need assistance to develop your project. Bring your laptop or tablet as you will be working on your own for the majority of this workshop. You also will need to have your photographs and any other documents you would like to use in your book in digital format on your device. Free wi-fi will be available in the conference center.

Free Genealogy Rest Stops on the Information Highway

With more genealogy research being done from the comfort of our homes genealogy websites seem to be popping up all around the internet. I will be covering "Free" websites that can help your research. Bring a laptop or notebook and follow along as we cruise down the "Information Highway". Our stops will include many interesting and helpful websites. Bring your laptop or tablet with you if you would like to following along with the instructor.

SEVEN PRESENTATIONS

Each 1 hour session will be offered twice except for "DNA Tested" and "DNA Tested: The Results are In!"

Babica pripoveduje – Grandmother's tales

A glimpse of times past, this presentation will describe how Slovenians lived, their family life, their values, customs and traditions (especially holiday times). Included will be some folk tales and folk heroes passed on from generation to generation. To give justice to people who achieved an exemplary status in the past in the fields of literature, music, a few "greats" will be briefly included.

DNA Tested

An introduction to Autosomal DNA testing and an overview of what you get when you buy a spit kit including a comparison of the three main companies.

Researching: How Do I Get Started?

This presentation focuses on the first-time Slovenian genealogy researcher—the person who contacts the SGSI Research Center and says, "I'd like to find out about my Slovenian ancestry, but I don't know where to begin! We never talked about our family history when I was growing up and now everyone is gone and I don't know anything!" You will learn what you need to know to get started, what is involved in doing research, where to gather information, how to keep your findings in logical order, and lots more. It's never too late to begin!

Dealing with Idiosyncrasies of Slovenian Genealogy Research!

Doing research in our Slovenian ethnicity follows that of genealogy research in general, but not when it comes to interpreting information found in U.S. Census reports and ships' passenger manifests among others. Numerous obstacles, Slovene in nature, may stop you in your tracks! What to do? Attend this presentation and learn to recognize these obstacles and how to deal with them, thereby making your genealogy research experience a pleasant one!

DNA Tested: The Results are In!

The excitement of receiving your DNA results can quickly turn to confusion. Understanding how to use this information can further your genealogical research.

Preserving Your Original Documents

Learn more about methods and techniques to preserve original family documents, records, and photos in order to be able to pass on the story of your family to future generations.

Slovenian Architecture and Art

Take a tour of some of Slovenia's artistic treasures and architectural gems. The illustrated presentation will review Slovenia's rich vernacular traditions as well as its world renowned masterpieces.

Sunday, June 25 | 9:30 a.m. – 7:00 p.m.

OPTIONAL EXCURSION: Cultural Experiences

If there is sufficient interest in this offering we will provide motor coach transportation for this day-long event. Leaving from and returning to the Holiday Inn. Cost is \$65 per person.

10:00 A.M. Slovenian Mass, St. Vitus Church

11:30 A.M. – 12:30 P.M. Tour our Research Center & Slovenian Museum and Archives

1:00 – 6:00 P.M. Proud to be a Slovenian Day, Slovenska Pristava

Generate Genealogy Memories
